

MY GENERAL GOALS

Think of a school subject or skill that you would like to continue doing well in and set some goals for continued growth in this area. Remember to make them specific, personal, and related to learning.

1) _____

2) _____

3) _____

Are the goals you wrote challenging yet achievable? If not, try revising them so that your goals challenge you but are realistic enough that you can achieve them by the end of the school year.
